Departmental Responsibilities:

1. State the reason for the emergency purchase by explaining what the emergency is and/or what caused the emergency situation. **The Rescue R-12 was having problems starting and maintaining charge.**
2. State the financial or operational damage/risk that will occur if needs are not satisfied immediately (do not simply say there will be a loss or some damage): **It is vital that the rescue R-12 is in good working condition to be able to respond to emergencies immediately.**
3. State why the needs were not or could not be anticipated so that goods/services could not have been purchased following standard procedures: **In this situation repair is needed immediately to avoid not being able to respond to an emergency in a timely manner to provide a safe response to SMC.**
4. State the reason and process used for selecting vendor (Attach all quotes/proposals received from other sources, if applicable): **Vendor responded quickly and was able to provide a battery for the unit so it can be in operating status.**

I certify that the above statements are true and correct, and that no other material fact or consideration offered or given has influenced this recommendation for an emergency procurement.
